Mr. Robson M. Henry
Lelu, Kosrae, FM 96944

Greetings,

I am writing in response to your letter complaining about police officers, Det. Thomas Charley and Det. Michael Jonas. It took me more than a week to give you this reply because This Office had to hear from the officers and others who were witnesses to the commotions.

After listening, and reading the police reports, and compared to what you reported in your letter and telephone calls to this office, I find your complaint lacks truthfulness. I further find that on the night in question you invited yourselves to the location where the incident occurred. That was March 3rd, 2023, at approximately 10:30 p.m., Yewak, Malem Municipality.

You appeared at the vicinity and started accusing those playing ROOK of trespassing. You demanded disbursement of the peaceful crowd without lawful authority. The report indicated you and your spouse exchanged profanity "olankiomtal" to the crowd and a Dison Dion Kephas.

Your allegation of assault by Detective Thomas Charley does not amount to assaults as prescribed by statute. The information relates you got off your vehicle and was approaching one Dison Kephas and in the process Detective Thomas Charley held out his hands to stop you from doing harm to others, Dison Dion Kephas, and to yourself.

Based on the information provided by you and the reports from the police involved in the incident, and others witnesses, I find your complaint insufficient to place civil or criminal charges against the police officers.

Sincerely,

Aliksa B. Aliksa
